B2BiConsult

B2BiConsult

With over 30 years IT & Business consulting experience, I have enjoyed the best opportunity to work with different Business Platforms and numerous Clients from various Sectors.

I apply this long term in the process of shifting IT Business & Services from older Technologies & Strategies to new and innovative Business Models.

The foremost work is to help the customers to figure out the Benefits and Opportunities of Digital Transformation mainly the specific areas of Digital Technology Enablement & Enterprise Digital Architecture.

I've been a Technical IT Consultant in the areas of SAP ERP, B2B-Integration, and Logistics Supply Chain all my career life. Deep knowledge in solutions-oriented Project Management with notable success directing a broad range of Corporate IT initiatives while participating in planning, analysis, implementation of B2B-Integration solutions in direct support of business objectives:

- Hands-on experience leading all stages of system development efforts, including requirement definition, design, architecture, prototyping and hypercare.
- Outstanding leadership abilities at developing effective Business-to-Business projects policies and procedures; project documentation, milestones, and technical as well as business specifications. Expertise in creating Joint Ventures within Business Consortium.

Recognizing the need to extricate myself from technical skills, I have broadened my outlook in dealing with Business Management topics with high interest in worldwide Macroeconomics.

Executive Member of **AFRO BUSINESS CONSORTIUM** The Africa Business Enabler

Consulting Methodology Approach

Strategy	-> Business Consulting	-> from Strategy to Process	DTC
Process	-> IT Consulting	-> from Process to Architecture	BPM
Architecture	-> Development	-> from Architecture to Application	TOGAF
Application	-> Operations	-> from Application to Operation	ITIL

Roadmap for Digital Transformation Approach

Building a Business Case	-> Awareness. showcase value of digital reality
Identifying Process Areas	-> Nuggets. among varied business processes
Developing Scalable Architecture	-> standards for interoperability, content prod.
Building Digital Assets	-> Digital Twins. Digital Eco-systems & Hubs
Enabling Enterprise Integration	-> ERP systems, Cloud Apps, IoT data collection
